GigaSPEED XL GS8E Patch Cords - Category 6

The GS8E XL Modular Patch Cord family represents the latest in a long line of innovative patch cord designs from SYSTIMAX Labs. This family of high bandwidth cords was specially designed to support the high performance system level requirements built into the new GigaSPEED XL cabling solutions. A wide variety of cord types, lengths, colors, and configurations are available through our new feature configuration ordering process. This gives the customer the ultimate in flexibility to meet any cabling infrastructure design. This cord is a SYSTIMAX certified required component.
